

Techtrails is coming to the Balga Community

Learning Together: STEM for Parents, Teachers, and Community

Date: Thursday, 27 February 2025

Time: 5:00pm - 7:00pm

Venue: Balga Senior High School - 2 Markham Way, Balga WA 6061

About the event:

Join us for an exciting evening where families, educators, students, parents, teachers, and industry leaders come together to explore the world of STEM (Science, Technology, Engineering, Maths).

This is your chance to learn how STEM is shaping the future and why it matters for your children and communities. No matter your background or experience, this event is for everyone—let's break down barriers and make STEM accessible to all!

Be inspired by our keynote speaker, Dr Catherine Ball a futurist who will share her powerful insights on the future of technology, education, space, and jobs. Then, hear from an expert panel featuring leaders in space and astronomy, psychology and technology, electric trains and automation, and research on scorpions and zoology. Together, we will explore emerging trends, jobs of the future, exciting career pathways, and the impact of STEM on our daily lives.

Why Attend?

- Watch a special preview of STEMpower - a FREE and innovative platform designed to inspire students, empower families, and strengthen communities.
- Hear about the careers of the future (Medical and Health, AI, Space, Science, Marine).
- Connect students with real life role models.
- Understand the opportunities available to your children and families.
- Ask your questions and share your concerns.
- Share stories.
- It is FREE to attend and includes food and water
